

# Exploring the Nurtured Heart Approach

May 16, 2017 | 8:30 am-3:00 pm

Presented by  
**Paula Wick, Ph.D., Advanced Trainer for NHA**

## Quotes from Past Participants

"This approach saved my group last year. The methods transformed really tough behaviors."

"This is my 25th year, and I totally needed something to get me through the end of my teaching career. I was looking for new techniques in my room and becoming an NHA person will inspire me to learn again."

The Nurtured Heart Approach® is a set of core methodologies originally developed for working with the most difficult children. It has a proven impact on every child, including those who are challenged behaviorally, socially, and academically. It has been shown to create transformative changes in children diagnosed with ADHD, Oppositional Defiant Disorder, Reactive Attachment Disorder, and other behavioral, emotional and anxiety-related symptoms-almost always without the need for long-term mental health treatment. NHA also holds promise for reducing disproportionate disciplinary data. In this one-day workshop, you will be introduced to the Three Stands® of NHA, learn specific NHA techniques that provide guidance on how to inspire great behaviors, and add NHA rules and consequences tools to your toolbox.

***This workshop counts as a prerequisite for the Nurtured Heart Approach Certified Training Intensive, where participants become NHA trainers. There is a CTI in Madison July 16 - 21. Find out more at [childrensuccessfoundation.com](http://childrensuccessfoundation.com).***

**Paula Wick, PhD**, taught elementary school for 33 years. She recently retired intent on continuing to promote positive practices including NHA. She earned her doctorate from UW-Madison in Educational Leadership. She is an Advanced Trainer for the Nurtured Heart Approach and an inspiring, energetic presenter. She is passionate about building inner wealth and empowering parents and educators to help children find success.
